

ORDER PROCESSING

As the initial step in a process which affects the entire operation of a distribution business, **ORDER PROCESSING** is critical to the organization's success. Taking an order is only a small part of a good **ORDER PROCESSING** system. An effective system should enable the user access to **INVENTORY CONTROL**, **PURCHASING**, and **INVOICING/RECEIVABLES**. **GENESIS' ORDER PROCESSING** is that effective system and more. We provide rapid and accurate availability data, automatic and flexible pricing, quotations, history, and many more features. As powerful as the system is, it still remains very easy to use. When fully integrated with our other systems, **ORDER PROCESSING** will help your organization execute orders rapidly, accurately, and keep your customers happy.

FEATURES

Some of the features and benefits available in **ORDER PROCESSING** include:

ON-LINE
 QUOTATIONS
 PRICING
 WAREHOUSING
 ROUTING
 INVOICING/RECEIVABLES
 INVENTORY
 HISTORY
 DCU

REPORTS

Through a flexible reporting capability the operator can generate unlimited reports. All of our reports are available through easy to use menus, which can be quickly accessed. Some of the reports available include:

ORDER REPORT	A list of all orders, open, closed, history, quotes, etc.
RECAP	Order, shipping and backorders can be recapped daily
ACKNOWLEDGEMENT	Customer acknowledgements can be printed
PICKING LIST	Product to be picked for shipment may be listed
SHIPPING INFORMATION	Shipping tickets, labels, and reports are available
DISCREPANCY	Any discrepancies between orders and shipments can be reported
QUOTATIONS	Quotations can be entered, printed and turned to orders
MISSING INVOICE	Any shipment made without an invoice will be noted
HISTORY	All history of orders and shipments can be recorded and reported
ACTIVITY	All activity on the order, including shipments, is available
REQUIREMENTS	The products required to fill the orders can be printed
AGING	Orders may be aged based upon varying periods
AND MORE

DESIGN

As with all GENESIS software systems, **ORDER PROCESSING** was written, designed and maintained by GENESIS. All packages are online database designed systems, which can run on Windows, Linux, HP9000 (Unix), and HP3000 (MPE) platforms. Access to the system is protected by our special security modules, which allows control of both, read and write capabilities for every screen. An online help facility is integrated into each screen.

CUSTOMER SUPPORT AND SERVICES

Complete user documentation and object code are included in the price of the package. Continuing support, source code, and customization are also available.
