

PURCHASING

Whether you are purchasing raw materials, inventory, or office supplies, a well-designed and fully featured **PURCHASING** system can potentially save you thousands of dollars. GENESIS has developed such a system, which, in the hands of a purchasing agent, can be used to make timely decisions to control product levels and to keep purchasing costs to a minimum. Since this system interfaces with our **INVENTORY** and **ACCOUNTS PAYABLE** systems, rapid on-line verification of levels, receivings, and vendor invoices can be monitored. Vendor performance, pricing, deliveries, items substitutions, and cross referencing are all available in our system.

FEATURES

Some of the features and benefits available in **PURCHASING** include:

APPROVALS
REQUISITIONS
CROSS-REFERENCE
CONTROL
RECEIVINGS
ACCOUNTS PAYABLE
INVENTORY
PRODUCTION
SEARCH
INQUIRY
HISTORY
AND MORE

Multi-level approvals are available to control ordering
Products may be requisitioned, grouped, and priced before ordering
Vendor and company item numbers can be cross-referenced
All orders issued, changed or canceled are recorded for auditing
Items when received will be verified for quantity discrepancies
An interface to payables for vendor additions and order receipt is available
Product levels and ordering needs can be reviewed for action
An interface to Production allows planning of receipts to work orders
Rapid searching of item numbers and vendor identification is available
On-line inquiry into orders and vendors can be made at anytime
A history of previous orders is kept and may be used for reissue
....

REPORTS

Through a flexible reporting capability the operator can generate unlimited reports. All of our reports are available through easy to use menus, which can be quickly accessed. Some of the reports available include:

RFQ	Request for quotations may be issued, received, and pricing posted
PURCHASE ORDERS	Orders may be created from requisitions or previous orders
CHANGES	Any changes to an issued order will be recorded for reporting
RECEIVINGS	All receivers will be posted and reported
QUOTATIONS	A report of quotations may be printed
VARIANCES	Variations in quantity and quality can be reported
PAST DUE	Orders, which are past due, will be reported
AGING	Orders may be aged based upon variable fields
DESCRIPTION	Extended descriptions can be entered and reported on orders
HISTORY	All orders may be kept in a history file for reporting
ITEMS	Items may be listed by vendor and cross referenced
BUYER	Buyers and their approval capability may be listed
AND MORE

DESIGN

As with all GENESIS software systems, **PURCHASING** was written, designed and maintained by GENESIS. All packages are online database designed systems, which can run on Windows, Linux, HP9000 (Unix), and HP3000 (MPE) platforms. Access to the system is protected by our special security modules, which allows control of both, read and write capabilities for every screen. An online help facility is integrated into each screen.

CUSTOMER SUPPORT AND SERVICES

Complete user documentation and object code are included in the price of the package. Continuing support, source code, and customization are also available.
