

INVOICING / RECEIVABLES

The lifeblood of any organization is its income. That is why it is crucial to have strong systems in place, such as a powerful **INVOICING/RECEIVABLES** system, to manage these functions. The **GENESIS INVOICING/RECEIVABLES** is such a system, offering three management tools in one to form a cohesive program of cash management. It is an accounts receivable system, which allows rapid posting and management reporting. It is an invoicing system so flexible as to fit the needs of most businesses. And, it is a sales analysis system, which accumulates and reports sales dollars and quantities by various user-selected categories. As an integrated module in our complete system, which interfaces to **ORDER PROCESSING** and the **GENERAL LEDGER**, or as a stand-alone solution, **INVOICING/RECEIVABLES** is a powerful tool to focus your marketing and cash management.

FEATURES

Some of the features and benefits available in **INVOICING/RECEIVABLES** include:

(OVER)

REPORTS

Through a flexible reporting capability the operator can generate unlimited reports. All of our reports are available through easy to use menus, which can be quickly accessed. Some of the reports available include:

INVOICES	Flexible format and inventory interface allows rapid processing
STATEMENTS	Optional statement and receivables detail reports may be printed
LETTERS	A free form letter writing capability to all customers is provided
GENERAL LEDGER	A distribution report of ledger entries may be printed
TAX	Totals are automatically accumulated and reported by tax authority
FREIGHT	Totals are automatically accumulated and reported by Freight Company
TICKLER	Credit and sales tickler reports can be provided to management
AGING	Customers may be aged in detail or in summary
REGISTERS	Invoice and payment registers may be printed
SALES ANALYSIS	Dollar and quantity sales may be reported by numerous categories
RECURRING	Recurring invoices may be processed for set periods
AND MORE

DESIGN

As with all GENESIS software systems, **INVOICING/RECEIVABLES** was written, designed and maintained by GENESIS. All packages are online database designed systems, which can run on Windows, Linux, HP9000 (Unix), and HP3000 (MPE) platforms. Access to the system is protected by our special security modules, which allows control of both, read and write capabilities for every screen. An online help facility is integrated into each screen.
